About Me

Hi, This is ShahZain. I am a passionate Frontend Web Developer with strong skills in React.js, modern UI libraries, and responsive web design. I enjoy building clean, user-friendly, and interactive websites that provide great user experiences. I have experience working with React Router, Tailwind CSS, and Material UI, along with good knowledge of JavaScript (ES6+), HTML5, and CSS3.
I am eager to keep learning and growing in web development while delivering high-quality projects.

WORK EXPERIENCE

Zephyr Leap   2024 - Present

- Developing and maintaining responsive, user-friendly web applications.
- Working with React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, and Material UI.
- Implementing React Router, Framer Motion, and API integrations for smooth navigation and dynamic features.
- Collaborating with designers and backend developers to deliver complete solutions.
- Ensuring cross-browser compatibility and mobile responsiveness.
